

Francesco Mecca

Date of Birth	31 st October 1995	Personal Blog	francescomecca.eu
Nationality	Italian	Github	FraMecca
		Email	me@francescomecca.eu

Italian expat currently living in London. I have a broad interest in **computer science** and software **engineering**. I have talent for **writing** and **communication**, in partly thanks to my **people skills**.

- Topics I would like to explore if given the possibility: **project management**, **teaching**.
- Topics I don't deal with: compsec / cyber security, machine learning, frontend development.

Work Experiences

09/2020 [Symmetry Investments](#)
ongoing *Research Developer*

I am currently hired by Symmetry Investments, a hedge fund operating in Hong Kong, London, Singapore and Jersey. I work primarily as a researcher for the functional DSL used in the firm. My topics of research and development involves functional programming concepts, type inference and type systems, virtual machines, language semantics. Another big part of the job is aiding practitioners (quant, analysts and traders) with programming related tasks, such as code reviews, project management, software development practices and it requires some domain specific knowledge. In addition to this I am quite involved in the hiring process and interview candidates regularly.

10/2019 [Inria, Parsifal team](#)
03/2020 *Intern*

For a period of six months I was working on my master thesis regarding the translation validation of the pattern matching compiler for the OCaml language. My work is supervised by [Gabriel Scherer](#) and is published on [Github](#). During the internship, Gabriel and me worked on a [workshop submission](#) that got accepted at [ICFP2020](#).

10/2018 [Symmetry Autumn of Code](#)
01/2019 *Participant*

Symmetry Investments sponsored my work on a concurrent garbage collector for the [D runtime](#) as part of the Symmetry Autumn of Code initiative. I worked under the mentorship of Leandro Lucarella of Sociomantic. All of my work is open source and accessible from my github account. A blogpost summing up the effort can be read [here](#). With the help of other D contributors the work was merged in [D 2.098.0](#).

01-2018 [Nexa Center for Internet and Society](#)
12-2018 *Junior Research Fellow*

I worked as a researcher at the Polytechnic of Turin for the Nexa Center for Internet and Society. I developed the web education platform [EduHack](#) under the supervision of [Professor Juan Carlos De Martin](#). The work was [presented](#) at the [OWLTEH 2018 conference](#) at Coventry university.

10/2017 **UCSB Security Lab**

06/2018 *Research Assistant*

Starting October 2017 till April 2018 I worked as a research assistant for [Professor Giovanni Vigna](#) and the [Shellphish team](#) at the security lab of the University of California Santa Barbara (UCSB). The focus of my research is on the exploitation and weaknesses of machine learning models applied to malware detection. On February 2020 the resulting [publication](#) got accepted at [NDSS'20](#).

09/2016 **Free Architecture for Remote Education**

06/2017 *Backend Developer*

FARE (Free Architecture for Remote Education) is a smart learning environment developed at the Polytechnic of Turin for the professors [Angelo Raffaele Meo](#) and [Marco Mezzalama](#) by me and [Leonardo Favario](#). FARE is currently used as a learning platform for the developing of MOOCs and remote lessons for hospitalized children. FARE won the second prize in the contest "Talent Italy" indicted by MIUR, Ministero dell'istruzione, dell'università e della ricerca, [Italian ministry education, university and research](#).

06/2016 **Berkman Klein Center for Internet and Society**

09/2016 *Intern*

During Summer 2016 I worked as an intern for the Berkman Klein center of the Harvard University (Cambridge, Massachusetts) with the collaboration of the Nexa Center for Internet and Society of the Polytechnic of Turin where I developed the Network of Centers Semantic Wiki. During the period I attended classes at [MIT](#) and [Harvard](#).

Other Experiences

- Published [Translation Validation of a Pattern Matching Compiler](#).
- Published [When Malware is Packin' Heat](#).
- For three years starting in 2017 I held some lectures for the bachelor course titled [Rivoluzione Digitale](#) (Digital Revolution) at Polytechnic of Turin.
- I was a guest at the OWLTEH2018 conference, showing the [EduHack](#) e-learning platform.
- In the year 2017 I was a speaker at [Turin International Book Fair](#) where I presented the e-learning techniques and software used at the Polytechnic of Turin.
- I [talked](#) about the work done during my internship at Harvard in a conference held by the Nexa Center for Internet & Society..

Education

09/2017 Master of Computer Science in Networks and Information Systems

04/2021 *University of Turin*

Most of the classes and exams were attended in Italian. Grade: 110/110 cum laude.

10/2014 Bachelor of Science in Computer Engineering

07/2017 *Polytechnic University of Turin*

Most of the classes and exams were attended in English. Grade: 93/110.

09/2008 Scientific High School Galileo Galilei, Macerata

06/2014 *Sezione sperimentale piano nazione informatica: Progetto Brocca.*

Computer Science and Software Engineering Skills

- *D, Kotlin, OCaml, Python, C, Java, SQL* (by experience).
- High proficiency with Gnu/Linux OSes and the shell.
- Been using git, markdown, org-mode and LaTeX daily for , project management and personal life.
- Currently using Gentoo as my daily driver.

Most relevant books read

- H. Cormen: Introduction to Algorithms
- H. Abelson, G. Sussman: Structure and Interpretation of Computer Programs
