

# Assignment #1

- The goal of the first assignment is to assess your understanding **network science** module
- You are requested to submit a **technical report** where you are supposed to describe the solutions of a bunch of exercises whose selection is up to you

# Exercises

- With reference to Easley-Kleinberg's textbook, just go to the end of the chapters we have covered (2-6, 8, 13-14, 16–21) and:
  - Select some of the many **exercises** that are included at the end of each chapter;
  - Give a **solution**;
  - **Describe** the proposed solution in the report you are asked to submit;
  - **Total number** of exercises you need to complete: **1 per student**
  - you cannot select an exercise if another student choose that exercise too.
- Communicate your **selected exercises** to the instructor;
- Exercise selections are **managed centrally on moodle**: make your choice there!

# Deadlines and Format

- **Deadline:** no real deadlines. Just remember to submit on moodle your technical report at **least three days** before the final exam. You will find a folder that are supposed to store your assignments.
- **Recommendation:** use Latex, adopting an **article template**
